Forward-looking statements include, but are not limited to, statements regarding the Bank’s

business plan and financial objectives. The forward-looking statements contained in this document are used to assist readers in obtaining a better understanding of the Bank's financial position and the results of operations as at and for the periods ended on the dates presented and may not be appropriate for other purposes. Forward-looking statements typically use the conditional, as well as words such as prospect, believe, estimate, forecast, project, expect, anticipate, plan, may, should, could and would, or the negative of these terms, variations thereof or similar terminology. Some of the specific forward-looking statements in this document include, but are not limited to, statements with respect to the use of proceeds from, and the expected date of the closing of, the Offering.

By their very nature, forward-looking statements are based on assumptions and involve inherent risks and uncertainties, both general and specific in nature. It is therefore possible that the forecasts, projections and other forward-looking statements will not be achieved or will prove to be inaccurate. Although the Bank believes that the expectations reflected in these forward-looking statements are reasonable, it can give no assurance that these expectations will prove to be correct. Certain important assumptions by the Bank in making forward-looking statements include, but are not limited to: the satisfaction of all conditions to the completion of each of the Offering, the Bank's ability to execute its transformation plan and strategy; the expectation of regulatory stability; no downturn in economic conditions; sufficient liquidity and capital resources; no material changes in competition, market conditions or in government monetary, fiscal and economic policies; and the maintenance of credit ratings.

The Bank cautions readers against placing undue reliance on forward-looking statements when making decisions, as the actual results could differ considerably from the opinions, plans, objectives, expectations, forecasts, estimates and intentions expressed in such forward-looking statements due to various material factors. Among other things, these factors include: the failure or delay to receive or fulfill regulatory approvals and notifications or otherwise satisfy the conditions to the completion of the Offering, changes in capital market conditions, changes in government monetary, fiscal and economic policies, changes in interest rates, inflation levels and general economic conditions, legislative and regulatory developments, changes in competition, modifications to credit ratings, scarcity of human resources, as well as developments in the technological environment. Furthermore, these factors include the ability to execute the Bank's transformation plan and in particular the successful reorganization of retail branches, the modernization of the core banking system and the adoption of the Advanced Internal Ratings-Based Approach to credit risk (the AIRB Approach). The Bank further cautions that the foregoing list of factors is not exhaustive.
